** The text has the poetic structure hoshana-[phrase]-hoshana-congregational response, etc. Following Cantor Mendelson's advice I am presenting this recitative as transcribed by Schall, which does not allow for that sort of phrase by phrase congregational participation. Given that this is a nusah presentation and not an actual Hoshana Rabba service, I hope you'll indulge a more performative presentation of hazzones for this text.

Many thanks to my coach Cantor Nadel, to Cantor Mendelson for his gracious assistance, to the Advanced Cantorial Recitative class that allowed me to monopolize our class time last week, to my fabulous quartet Summer Greenwald-Gonella, Sarah Levine, Ethan Goldberg and Malachi Kanfer, and to you for joining us today!
